NAME

## **Chapter Review** 10 Quadratic Mini Golf

Below is a map of four holes on a miniature golf course. The object of this mini-golf game is to use the graph of a quadratic equation to build a bumper around the holes that will make it easier to sink your putts. You want to putt your golf ball into a black hole. If your ball goes into a white hole, you lose it. The distances shown on the golf course below are units that correspond to the units on a coordinate grid. From the four equations below, pick the one whose graph will make your putt easier for each hole.

**a.** 
$$y = 4x^2 - 8x + 4$$
   
**b.**  $y = -x^2 + 2x + 5$ 

Answers are located in the Answer Key.
